

Town of Island Falls

Growing Into Modern Times

Island Falls Community Island Park

Preliminary engineering and conceptual design work has been completed for our Community Island Park. This is an exciting project that started with our Economic Development Advisory Committee's participation in the "Katahdin Gazetteer: A Roadmap to the Future" and extended into our Comprehensive Plan.

A formal presentation on the conceptual design and job scope will be made by representatives from VHB Engineering Wednesday, July 19th at 6:00 pm at the Town Office.
