

Town of Island Falls

Growing Into Modern Times

Office Renovations

It's finally going to happen. The interior of our Town Office will be upgraded, all made possible through a \$132,500 grant from the Gloria MacKenzie Foundation. We are thankful for the support that we have received from the Gloria MacKenzie Foundation through the years. Without the Foundation the renovations in the gym and also the Ambulance/Fire Department wouldn't have been possible.

Construction started on August 30th. We were closed for 2 days to allow relocation to the meeting room. Entry will be through the side door (just past the garage). Signs will be posted to reduce the confusion. Construction on the office area is expected to take 4 to 6 weeks. Please bear with us, as we are sure there will be some interruptions to services.

The renovations include upgrades to the bathroom facilities. The hallway and interior entrance will be changed. The total constructions should be done by the middle of December.
